

ICMP attacks against TCP

(draft-ietf-tcpm-icmp-attacks)

Fernando Gont

**73rd IETF meeting, November 16-21, 2008
Minneapolis, MN, USA**

Overview

- The document has been around for the long time
- The only pending issues was that any instances “recommending” what’s included in the draft should be removed.
- I believe we are there already
- **Should we WGLC this document?**
